

## WORKSHEET-4

DATE:-30/6/20

Shri Gujrati English Medium School

SUBJECT:- EVS

Chapter:-3 , Breathing

CLASS:- V th

Name of Student:-

### Q. 1 Fill in the blanks:-

1. Inhalation involves the intake of \_\_\_\_\_ rich air through the nose.
2. The lungs are protected by the \_\_\_\_\_
3. The air rich in \_\_\_\_\_ is released during exhalation.
4. The average breathing rate of a healthy human is \_\_\_\_\_ breaths per minute.
5. A muscle called \_\_\_\_\_ is present below the lungs.

### Q.2 Choose the correct options :-

1. Our breath contains \_\_\_\_\_ which helps the fire to burn more brightly.  
(a) Oxygen      (b) Hydrogen      (c) Carbon dioxide
2. A human adult has a breathing rate of \_\_\_\_\_ breaths per minute.  
(a) 15-20      (b) 12-20      (c) 10-20
3. \_\_\_\_\_ are a pair of bag like structures located in the chest cavity.  
(a) Lungs      (b) Diaphragm      (c) Chest
4. We can make hot things \_\_\_\_\_ with our breath.  
(a) Hot      (b) Cold      (c) Warm
5. \_\_\_\_\_ involves two steps- Inhalation and Exhalation  
(a) Digestion      (b) Excretion      (c) Breathing

### Q. 3 Match the following :-

A

1. Inhalation
2. Exhalation
3. Lungs
4. Diaphragm
5. Breath

B

- (a) Water vapour
- (b) Dome shaped
- (c) Carbon dioxide
- (d) Ribcage
- (e) Oxygen

**Q.4 Write True / False:-**

1. The air we exhale is cool. \_\_\_\_\_
2. Oxygen is required for burning. \_\_\_\_\_
3. We blow on our palms in summers to keep them cool. \_\_\_\_\_
4. Our breath contains water vapour. \_\_\_\_\_
5. We breath more while doing exercises. \_\_\_\_\_

**Q. 5 Define the terms :-**

1. Breathing

---

2. Inhalation

---

3. Exhalation

---

**Q. 6 Write a short note on Breathing. (35-40 words)**

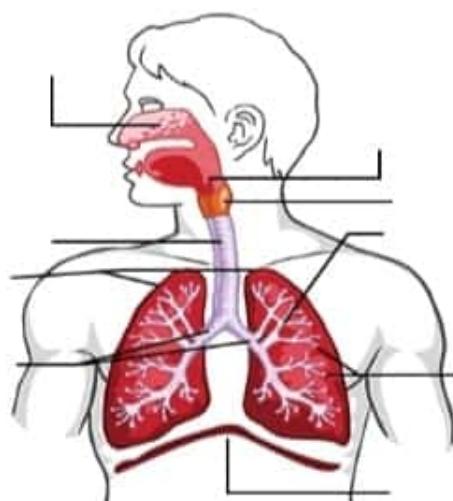

---

---

---

**Q.7. Label the diagram given with the following options:-**

*( Nasal Cavity, Trachea, Lungs, Pharynx, Bronchi, Diaphragm, Alveoli, Larynx, Bronchioles)*
